**DETAILED ACTION**

***Allowable Subject Matter***

1. Claims 2,7,16-18 are allowed.
2. The following is an examiner's statement of reasons for allowance:  
Regarding claim 2, prior art taken either singularly or in combination fails to anticipate or fairly suggest the limitations of the dependent claims, in such manner that a rejection under 35 U.S.C 102 or 103 would be proper. The prior art fails to teach a combination of all the limitations to include at least an imaging optical system for forming an imago of an object comprising a first lens unit, one or more second lens unit interposed between the first lens unit and the image wherein the first lens unit includes at least one negative refractive power lens, a deformable mirror, and at least one lens with a positive refracting power satisfying the claimed condition.

Regarding claim 7, prior art taken either singularly or in combination fails to anticipate or fairly suggest the limitations of the dependent claims, in such manner that a rejection under 35 U.S.C 102 or 103 would be proper. The prior art fails to teach a combination of all the limitations to include at least an imaging optical system for forming an image of an object comprising a first lens unit, one or more second lens unit interposed between the first lens unit and the image wherein the first lens unit includes at least one negative refractive power lens, a deformable mirror, and at least one lens with a positive refracting power satisfying the claimed condition.

Regarding claim 16, prior art taken either singularly or in combination fails to anticipate or fairly suggest the limitations of the dependent claims, in such manner that a rejection under 35 U.S.C 102 or 103 would be proper. The prior art fails to teach a combination of all the limitation which at least include an imaging optical system, in order from the object side at least comprising the second and fourth lens unit being moved dependently along an optical axis and satisfying the claimed condition.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
